

AUDA StreetScape Update November 30, 2011

CONSTRUCTION PROJECT UPDATE

From November 30th–December 7th, please anticipate construction work to continue between Elder's Station & Pine Street on Lincoln Way. Hansen Brothers will be working on forming and pouring the remaining sidewalks once the poles have been removed. They will also be working on various construction contract close out items.

AT&T & WAVE Broadband are working on the switch over from overhead to underground utilities this week. PG&E is scheduled to remove the remaining 8 poles on Monday, December 5th once the other utilities are complete with the transition from overhead to underground.

Hemington Landscape will begin planting next week once the poles are removed.

Please anticipate some delays on Lincoln Way. We regret this inconvenience and ask our residents, businesses and visitors to be patient and considerate during the project. The construction will occur over the next month.

Please remember that businesses are open during construction and there is public parking located on Lincoln Way near Elder's, near Depoe Bay and off E. Placer St.

More information on the Streetscape Phase II Project can be found online at:
